Advanced Assembly Named One of Top 3 Technology Service Companies in Colorado

Company's outstanding work and dedication in quick-turn, pcb assembly leads to recognition in the 11th annual CSIA Apex Awards

Denver, CO – July 13, 2011 – Advanced Assembly, a leader in SMT assembly services for printed circuit boards (pcb), announced today it has been nominated for the 2011 Apex Awards, the prestigious technology awards recognizing outstanding accomplishments and leadership by Colorado's advanced technology companies and professionals. The winners and finalists will be announced live on Tuesday, July 12, 2011 at The Robert and Judi Newman Center for the Performing Arts at the University of Denver.

Since the program's inception in 2000, CSIA's Apex Awards have produced well-deserved recognition for the numerous technology company success stories and technical advancements produced in Colorado. Presented in five categories for companies and five categories for professionals, the awards recognize success, innovation, vision, leadership, excellent customer support and community contributions.

"We are honored to be named one of the top three technology service companies in Colorado by this prestigious organization," said Lawrence Davis, CEO of Advanced Assembly. "Our company continues to receive industry accolades because of our outstanding ability to meet customer needs by delivering machine-placed pcb assembly faster than any other company in industry."

Advanced Assembly's continued growth and success results from strong customer loyalty and increasing company awareness. In Q2, new regional growth topped 80% and the company again signed more than a hundred new customers.

"Colorado's technology industry has experienced much growth over years, and it's important for these successful companies to be recognized," said Su Hawk, president, CSIA. "Our Apex Awards provide the industry a once-a-year opportunity to celebrate their success, and generate awareness around these notable companies, which include Advanced Assembly."

About Advanced Assembly

Advanced Assembly is an Aurora, Colorado company specializing in quick-turn, SMT assembly for design engineers needing low volume or prototype printed circuit board assembly. With customers like Motorola, AT&T and Intel, and close supplier relationships with Digi-Key, Mouser and Arrow, Advanced Assembly is quickly becoming the industry leader for prototype printed circuit board assembly. The company is committed to delivering high quality services and is ISO 9001:2008 certified. For more information visit <http://www.aapcb.com> or call 1-800-838-5650.

About CSIA:

CSIA is the technology industry leader in uniting and growing Colorado's information technology industry by providing advocacy, education, business connections, and information, while supporting economic development, unification of technology stakeholders, and larger recognition of the industry and the people involved to develop and promote Colorado's technology industry. CSIA also works nationally to ensure Colorado's technology voice is heard, through TECNA, a coalition of technology associations across the United States and Canada, as well as with TechAmerica, the national lobbying organization for federal issues. Since 1994, CSIA has been involved in legislative issues and public policy to represent the information technology industry in Colorado, and has provided a number of annual programs, events and connections to support business success. For more information on CSIA please call (303) 592-4070 or visit www.coloradotechnology.org
