Advanced Assembly Announces Promotion of Kevin Ryan to President *Promotion Will Help Company Successfully Address Tremendous Company Growth and Expectations for Future Expansion*

Aurora, CO – February 12, 2013 – Advanced Assembly, a leading provider of SMT assembly services for engineers, today announced that Kevin Ryan has been promoted to President, effective February 1, 2013. Lawrence Davis, co-founder of Advanced Assembly will remain as the Chief Executive Officer. As company President, Mr. Ryan will play a key role in determining the strategic direction of the company in its mission to serve the company customers.

Ryan has served as Chief Operating Officer at Advanced Assembly for the past two years, where he helped the company achieve double-digit growth year over year, streamlined processes and oversaw the installation of several new pieces of high-tech assembly equipment. In his position as President, Ryan will have direct responsibility for all departments and continue to oversee the daily operations of the company. With more than 20 years of experience in all facets of finance, executive leadership, operations, P&L management, and information technology, Ryan is well qualified to steer the company in fulfilling the industry's need for quick-turn pcb assembly.

"Since its founding, Advanced Assembly has led the way in delivering high quality pcb assembly for engineers needing help with their low-volume and prototype projects," said Lawrence Davis, CEO of Advanced Assembly. "Our revenue increased 67% last year and we expect it to increase similarly in 2013. Kevin has clearly demonstrated that he has the knowledge and expertise to scale the company through more efficient operations and leadership, while still maintaining the personal customer focus that has always been the foundation of this company."

"Of course, I'm very pleased with the success to date of Advanced Assembly," said Ryan. "But I still see so much potential ahead. Advanced Assembly and its employees have shown it is possible to assemble low-quantity orders in 5 days or less with the highest quality. Now I am looking forward to leveraging these unique advantages to build even more utility for our expanding customer base and dramatic returns for the company."

Prior to joining the executive team at Advanced Assembly, Mr. Ryan handled all aspects of operations management, business services and information technology and accounting for Hitt Contracting Inc., a multi-million dollar, national general contractor firm. Before Hitt Contracting, he streamlined daily processes and enhanced productivity at The Washington Post as the Director of Advertising Budget, Systems and Administrations. Ryan also was the Director of Financial Planning for Spalding Sports Worldwide, where he held financial responsibility for 20 product lines and 8 global subsidiaries.

He graduated Cum Laude from Univ. of Massachusetts with a BA in Accounting and is a graduate of Digital Equipment Corporation's Financial Development Program, a renowned three year management program based in Maynard, MA.

About Advanced Assembly

Advanced Assembly is an Aurora, Colorado company specializing in quick-turn, SMT assembly for design engineers needing low volume or prototype printed circuit board assembly. With customers like Motorola, AT&T and Intel, and close supplier relationships with Digi-Key, Mouser and Arrow, Advanced Assembly is quickly becoming the industry leader for prototype printed circuit board assembly.
